Herbs and Health
100% Natural

Black Cohosh (*Cimicifuga racemosa*) provides natural support for women during menopause.*

This plant is carefully selected by Aboca adhering to the strictest protocols. Systematic quality controls implemented throughout the entire production process and analytical testing performed on raw material and finished product validate the safety and effectiveness of this herbal supplement.

Though actin and 27-deoxyactin are considered among the main active ingredients of Black Cohosh, many other plant components contribute to the herb's efficacy. That is why Aboca has developed the exclusive W.P.C.

W.P.C. (Whole PhytoComplex Concentrate) is a combination of the freeze-dried extract with micronized powder from the same portion of the plant, to assure maximum bioavailability, optimum concentration of active principle and the full-spectrum of constituents.

The result is a product with uniform content of actin and 27-deoxyactin without the use of excipients, colorings, flavorings, or preservatives. GMO free.

*This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.
